Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A * * * following a place name indicates that the place is coterminous with a MCD. A * * indicates that the place is also a false MCD; the false MCD name is not shown.

² A * * * following a block number indicates that the block number is repeated elsewhere in the block.

Figure 1 shows a grid of 12 map symbols and their corresponding text labels. The symbols are arranged in two columns. The first column contains: Highway (solid line), Secondary Road (dashed line), Jeep Trail/Backway/Path (dotted line), and Railroad (line with cross-ticks). The second column contains: Pipe/Power Line (line with cross-ticks), Ridge/Physical Feature (line with small triangles), Property/Fence Line (line with small squares), and Nonvisible Boundary (dashed line). To the right of these are two columns of text labels: Stream/Shoreline, Intermittent Stream, River / Lake, and Glacier. The symbols for Stream/Shoreline, River / Lake, and Glacier are wavy lines, while the symbol for Intermittent Stream is a dashed wavy line.
